How to Measure

Series 4300 & 4700 Fabric Casement Window Awnings

Step 1: Using chart below, Choose the DROP that best suits your needs. This will determine how far down the window the awning will come. The DROP associated with the "Window Height" (A) is only a suggestion. You may choose any **of the drops within the table** you wish. Casement awnings require a minimum of 6" above the window for mounting. Windows opening more than 18" will require additional mounting space.

Step 2: Measure outside of window casing - edge to edge (B). If you mount the awning on the window casing (frame), this measurement is what you need. If you wish to mount the awning on the house wall then you need to add, at least, 1.5" on to each side to determine the final measurement. Awnings **cannot** be mounted on shutters.

Step 3: Select a fabric that best compliments your home, from our selection of 45 fabric choices. The complete line of Sunbrella fabrics is open to you. All we need is a name and number of the fabric you would like. All fabric awning framework is in Bronze finish.

Note: Special Orders in Custom widths up to 120", in one piece, in 1" increments are available. **Call (800) 922-4760 for pricing on special sizes**

Awning Model Number	6	7	8	9
For Window Heights of:	46"	56"	66"	76"
Drop Approx.	25"	31"	37"	40"
Projection	30"	32"	35"	38"

Obtaining necessary permits is the sole responsibility of purchaser. Customers agree to hold ScreenHouses Unlimited and manufacturer free of any liability for improper installation, maintenance and repair.
