- \*\*The top stays on all winter!**
- \*\*Patented roof venting system for those hottest days!**

- Ideal for hot tubs. These panels are 80" high and a complete sliding screen door system is also part of this package. It comes with either white or taupe frames and a 5 color choices of a 14 ounce, triple ply, heat sealed vinyl top.
- The roof rafter system is made with 1" diameter galvalum extrusions for rustproof strength and durability.
- The roof system has been specially designed with a 25 degree pitch (boasting a 111" peak height). This allows for a 4 season set up preventing an extreme accumulation of snow on the roof. An interior heat source (such as a hot tub) could make snow on the roof stick to the vinyl so we would always recommend common sense when dealing with snow.
- 45" sliding door assembly - specialized top rail roller system allows for a strong, easy sliding door.
- The vinyl top has a patented system of air circulation vents while being 100% waterproof.
- This is a very high quality, long lasting gazebo style room that is easily assembled within a few hours.
- The triple ply, heat sealed (welded joints), 14 ounce soft vinyl roof is made to last!
- Vinyl Top Color Choices - Hunter Green, Dark Blue, Gray, Taupe, Burgundy or White
- Privacy panels / wind breaker panels are available. Simply snap them in behind the screen.
- The kit includes complete brackets and moldings to secure your unit to the deck or patio.
- As an option, decorative aluminum side walls may be incorporated into your unit for added beauty and style.
- Clear Mylar windows are also an option, which snap in right behind the screen, keeping out the wind and rain.
