- Ideal for hot tubs. These panels are 79" high and a complete sliding screen door system is also part of this package. It comes with either white or taupe frames and a 6 color choices of a triple ply vinyl top.
- The roof rafter system is made with 1" diameter galvalum extrusions for rustproof strength and durability.
- The roof system has been specially designed with a 25 degree pitch (boasting a 111" peak height). This allows for a 4 season set up preventing an extreme accumulation of snow on the roof. An interior heat source (such as a hot tub) could make snow on the roof stick to the vinyl so we would always recommend common sense when dealing with snow.
- 45" sliding door assembly - specialized top rail roller system allows for a strong, easy sliding door.
- The vinyl top has a patented system of air circulation vents while being 100% waterproof.
- This is a very high quality, long lasting gazebo style room that is easily assembled within a few hours.
- The triple ply, heat sealed (welded joints), 14 ounce soft vinyl roof is made to last!
- Vinyl Top Color Choices - Hunter Green, Dark Blue, Gray, Taupe, Burgundy or White
- Frame is 1-1/8" wide x 3/4" thick aluminum with baked on enamel finish - **in white or taupe**. Total height of each frame is 79".
- 1" diameter 'galvalum' supporting structure every 44"
- Privacy panels / wind breaker panels **are included with this unit!** Simply snap them in behind the screen.
- The kit includes complete brackets and moldings to secure your unit to the deck or patio.
- As an option, decorative aluminum side walls may be incorporated into your unit for added beauty and style.
- Each screen panel is 44" wide and 79" high for easy walk through
- Extrusion is 1/8" thick
- Full one year warranty.
